To: PSAL Fencing Teams and Coaches

The Fencers Club wishes to extend an offer to the PSAL fencing teams for the 2008-2009 season on Saturdays evenings for practice and international competition-level instruction.

We realize that not all coaches have an opportunity to stay current with the latest developments in international-level fencing training techniques and tactical developments, and the Fencers Club wishes to provide New York Public School coaches and their teams an opportunity to do so.

We are offering our facilities and our own world class coaching services for the instruction of PSAL teams and their coaches, on the following basis:

- o Saturday evenings, 6 to 8 PM
- o Interested PSAL teams and the coaches must contact the club for availability. Our board member has volunteered to assist you and answer any questions. Please contact Liz Cross, PSAL@fencersclub.com.
- o To partially offset the expense of the Fencers Club for running of this program, we request a nominal payment of \$10 per athlete attending. In cases of financial hardship, as attested by the school coach, this requirement can be waived.
- o We will work with the teams and the coaches, so that the athletes and the coaches can benefit from our well planned training exercises and my expertise in fencing tactics.

We hope that you will take advantage of this offer. The objective of this program is to assist PSAL fencing teams and their coaches realize their potential and improve the overall level of the game. We consider this to be part of our mission to foster and improve the quality of the sport of fencing in New York City.

Sincerely,

Senior Coaching Staff
Fencers Club
